S180-4

THE WHITE HOUSE,
Washington, July 31, 1987.

THE PRESIDENT OF THE SENATE.

SIR: I ask the Congress to consider amendments to the request for appropriations for fiscal year 1988 for International Security Assistance, the Department of Defense-Military, and the National Aeronautics and Space Administration.

The details of these proposals are set forth in the enclosed letter from the Director of the Office of Management and Budget. I concur with his comments and observations.

Sincerely yours,

RONALD REAGAN.

The President

The White House

Sir:

I have the honor to submit for your consideration amendments to the request for appropriations for fiscal year 1988 in the amount of $23,000,000 for International Security Assistance, a reduction of $32,000,000 for the Department of Defense-Military, and $28,000,000 for the National Aeronautics and Space Administration.

I have carefully reviewed the proposals contained in this document and am satisfied that these requests are necessary at this time. I recommend, therefore, that these proposals be transmitted to Congress.

Sincerely yours,

James C. Miller III
Director

Budget Appendix Page	Heading	1988 Budget Request Pending	1988 Proposed Amendment	1988 Revised Request
	FUNDS APPROPRIATED TO THE PRESIDENT:			
	INTERNATIONAL SECURITY ASSISTANCE			
I-D3	Economic Support Fund.....	$3,587,500,000	$23,000,000	$3,610,500,000
	DEPARTMENT OF DEFENSE-MILITARY			
	OPERATION AND MAINTENANCE			
I-G9	Operations and maintenance, Navy.....	$26,526,092,000	-$32,000,000	$26,494,092,000

This proposal would provide funds to support Jordan's West Bank/Gaza development program. This program would assist the Government of Jordan in its efforts to promote economic development on the West Bank and Gaza. This increase would be fully offset by a reduction in the fiscal year 1988 appropriations request for the Operations and maintenance, Navy account in the Department of Defense. Net outlays would not be affected.

MEMORANDUM TO: Fred Mohrman/Frank Sullivan ✓

FROM: Phil Dame
Chief, Budget Preparation Branch

SUBJECT: FY 1988 Amendments for International Security Assistance, the Department of Defense-Military, National Aeronautics and Space Administration.

It has come to our attention that the budget amendments transmitted to Congress under Presidential signature July 31, 1987, contained technical errors in the Department of Defense-Military, Operations and maintenance, Navy account.

The table containing changes to the Budget Appendix should read $25,052,830,000 under the 1988 Budget Request pending, and $25,020,830,000 under the 1988 Revised Request for the account Operations and maintenance, Navy.

The attached Budget Appendix table reflects these corrections, and is to serve as a replacement page until the corrections are formally transmitted with the next budget amendment package.

We regret any inconvenience the error may have caused.

Budget Appendix Page	Heading	1988 Budget Request Pending	1988 Proposed Amendment	1988 Revised Request
I-V1	Research and development.....	$3,623,200,000	$28,000,000	$3,651,200,000

This proposal would provide funds to initiate the procurement of launch services for two Delta-class launch vehicles to launch the Roentgen Satellite in 1990 and the Extreme Ultraviolet Explorer in 1991. The increased outlays associated with the request would be offset by outlay reductions in other programs.
